Camboriú/SC - Brazil

Summary

An experienced Software Engineer with a solid trajectory of over two decades in the technology industry, excelling in both full-stack development and strategic leadership. Expertise in a wide range of technologies including TypeScript, React.js, Next.js, Node.js, Nest.js, Tailwind CSS, Docker, CI/CD, AWS, Python, and Git. Technical foundation is complemented by in-depth knowledge of Machine Learning, TDD, SOLID principles, DDD, and agile methodologies.

In recent years, focused on leading multidisciplinary teams in digital product development, emphasizing architecture, testing, and observability. Currently, the career is being redirected towards an individual contributor role as a Software Engineer, focusing on TypeScript development for both backend and frontend.

Experience

2023 - now | rcmonteiro.com
Software Engineer
Focus on on-demand development using TypeScript, Node.js, React, AWS, and Vercel.

2018 - 2023
Contabilizei | Softplan | Talentify
Tech Product Manager
Results-driven, working with teams on architecture definition, testing, software quality, and requirement specification.

2011 - 2018
SitePX | Beracode
Software Engineer, CTO and Cofounder
Developed two startups from prototype to cloud provisioning and observability, serving as both technical leader and software engineer.

2000 - 2011
Tomate | A1.interactive | LiquidMinds | W2r
Software Engineer
Focus on software engineering using PHP, jQuery, and MySQL, delivering solutions for major clients such as Alô Bebe, Revista Trip, Banco Schahin, Banco Finasa, Ticket, Sherwin Williams, Bridgestone, and Firestone.

Skills

Typescript · React.js · Next.js · Node.js · Nest.js · Tailwind CSS · Docker · CI/CD · AWS · Python · Git · Machine Learning · TDD · SOLID · DDD · Agile Methodologies

Strengths

Problem Solving
With over 20 years of experience interacting with digital products, I have encountered and navigated through all kinds of critical situations. This has strengthened my focus and calmness in debugging technical issues.

Leadership
Frequently leading multidisciplinary teams and receiving excellent feedback from team members. The leadership approach is to work on the front lines, hands-on, alongside the team.

Quick Learning
Self-taught from the beginning, I believe no mission is impossible. It just requires calmly reading the documentation and learning through practice (with over 60 repositories on GitHub)

Lifelong learning

2024/03 - 2024/06
Rocketseat
TypeScript, React, Next, Node, Nest, Machine Learning, Python, CI/CD, Docker, TerraForm.
21+ certifications

2021/02 - 2021/04
PM3
Product Management + Product Growth certification
